

How to use the Patient Portal on a Desktop or Laptop Computer

- Adults: Provide your e-mail address during registration to receive a Patient Portal invitation. Follow the emailed instructions or go to <https://patientportal.lawrencegeneral.org> to sign up. If you did not provide an email address at registration or are having difficulty signing up online, call (978) 946-8409 or email patientportal@lawrencegeneral.org.

- Click on “Health Record”

- On the right side of the screen, Click on “Results” to view COVID test results.

- Test results will be listed next to the date and time of test.

View the most recent results for each laboratory and microbiology test. Select a test below to view the history of results. Please note: Non-sensitive lab results will be available 72 hours after specimen collection. [Learn More](#)

Select  to view result comments

Date	Test	Result	Reference Range	Flag
Aug 06, 2020 4:22 pm	SARS-CoV-2 Source	NASAL		
Aug 06, 2020 4:22 pm	SARS-CoV-2 RNA (RT-PCR)	NEGATIVE 	NEGATIVE	

- To Print or download results, click on the result click “Print” button on the right side panel. On the next screen, click on the printer icon

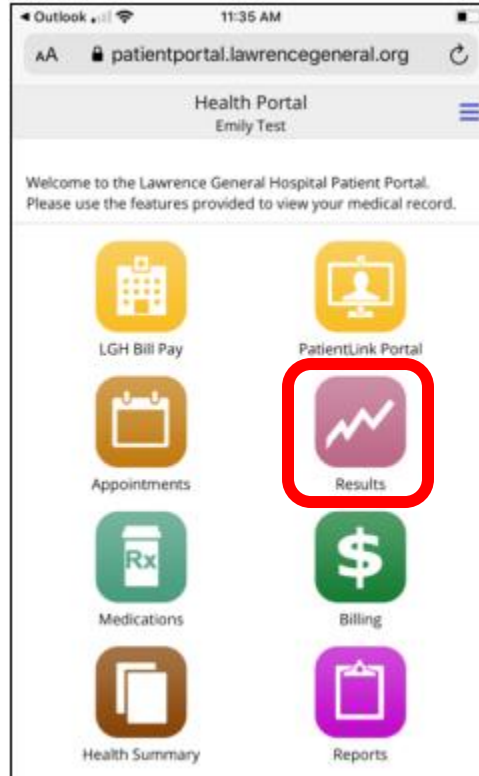

- To download results, click on “Print” button first and then on the next screen, click the download icon

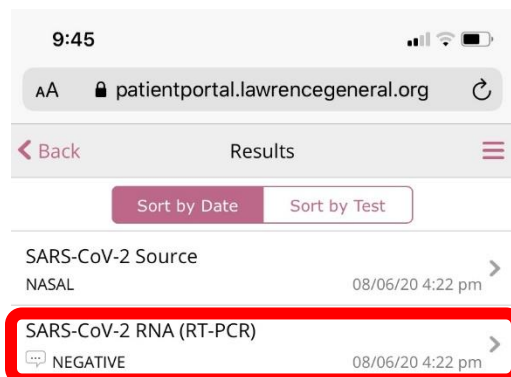

How to use the Patient Portal on a Mobile Device

- Adults: Provide your e-mail address during registration to receive a Patient Portal invitation. Follow the emailed instructions or go to <https://patientportal.lawrencegeneral.org> to sign up. If you did not provide an email address at registration or are having difficulty signing up online, call (978) 946-8409 or email patientportal@lawrencegeneral.org.

- Click on “Results”

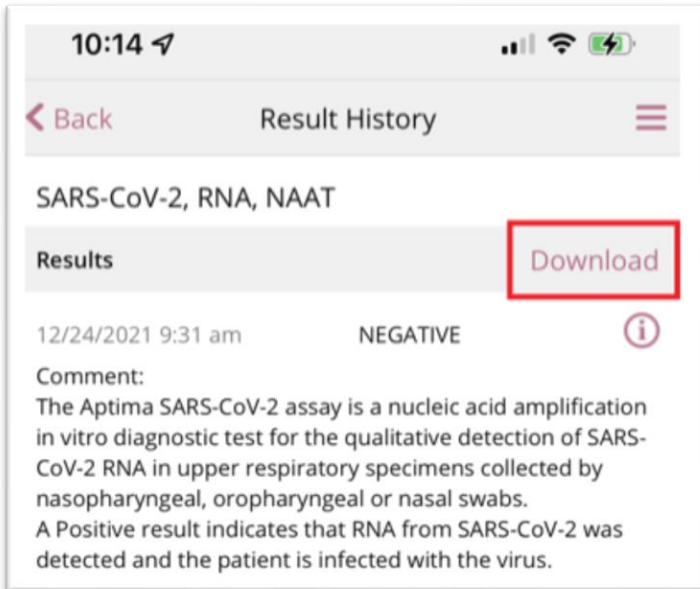

- Test results will be listed next to the date and time of test. Click on the most recent test with the result listed (do NOT click on the one that says “NASAL”):

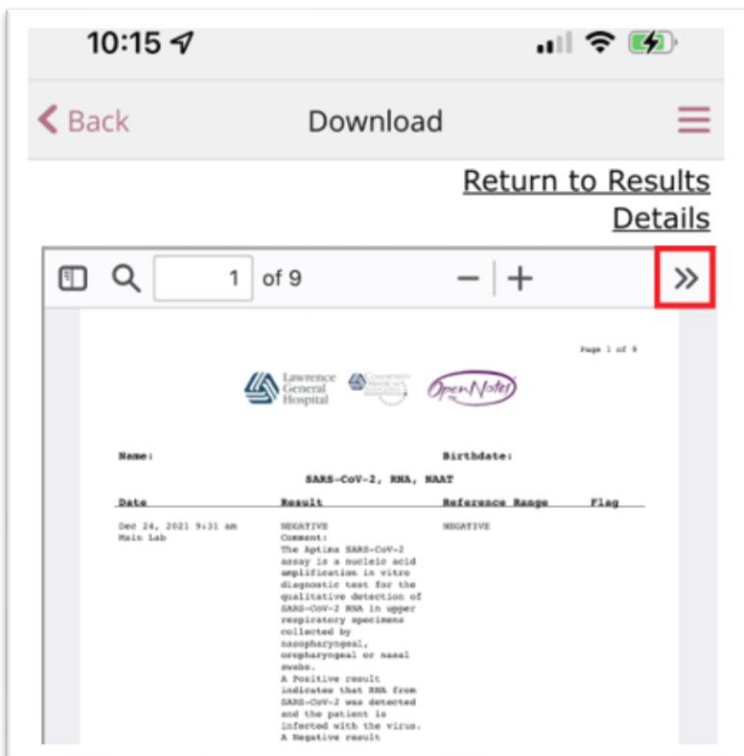

See Next Page for Result Downloading Instructions→

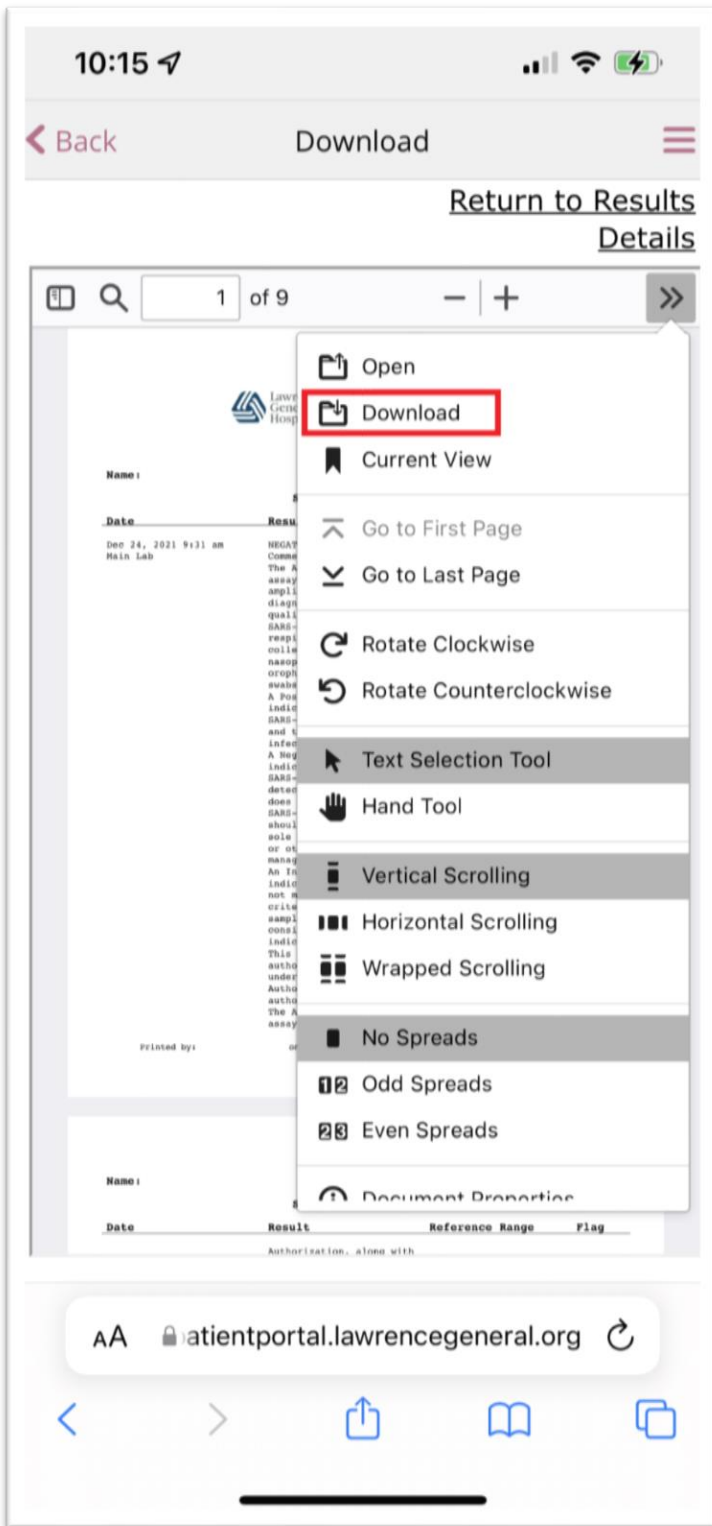

➤ To Download results, Click “Download” Button:

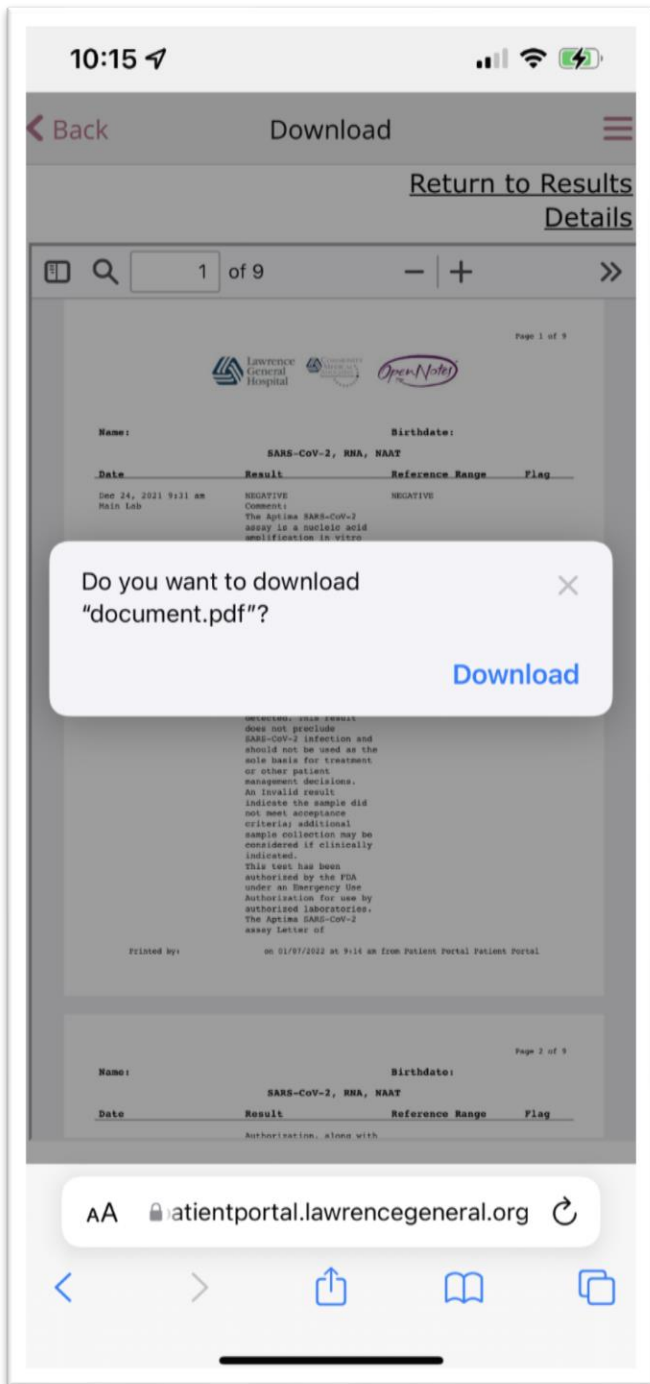

➤ In the top right corner, click the double arrow:

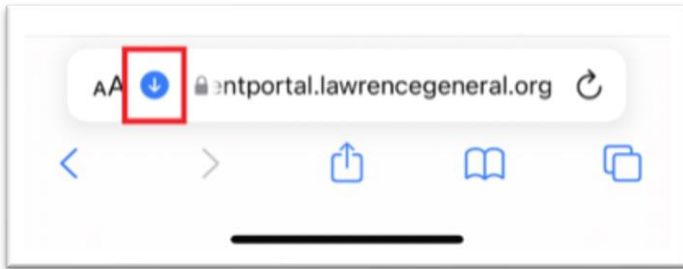

➤ On the menu that opens, click on the “Download” Folder

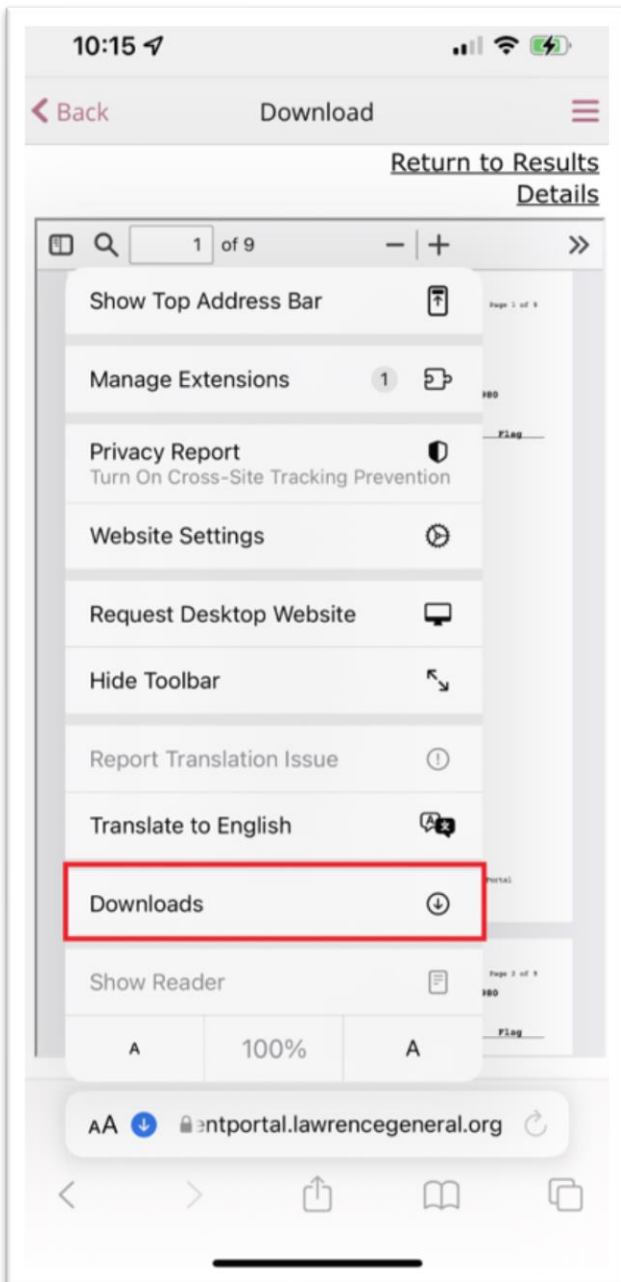

➤ Click Download:

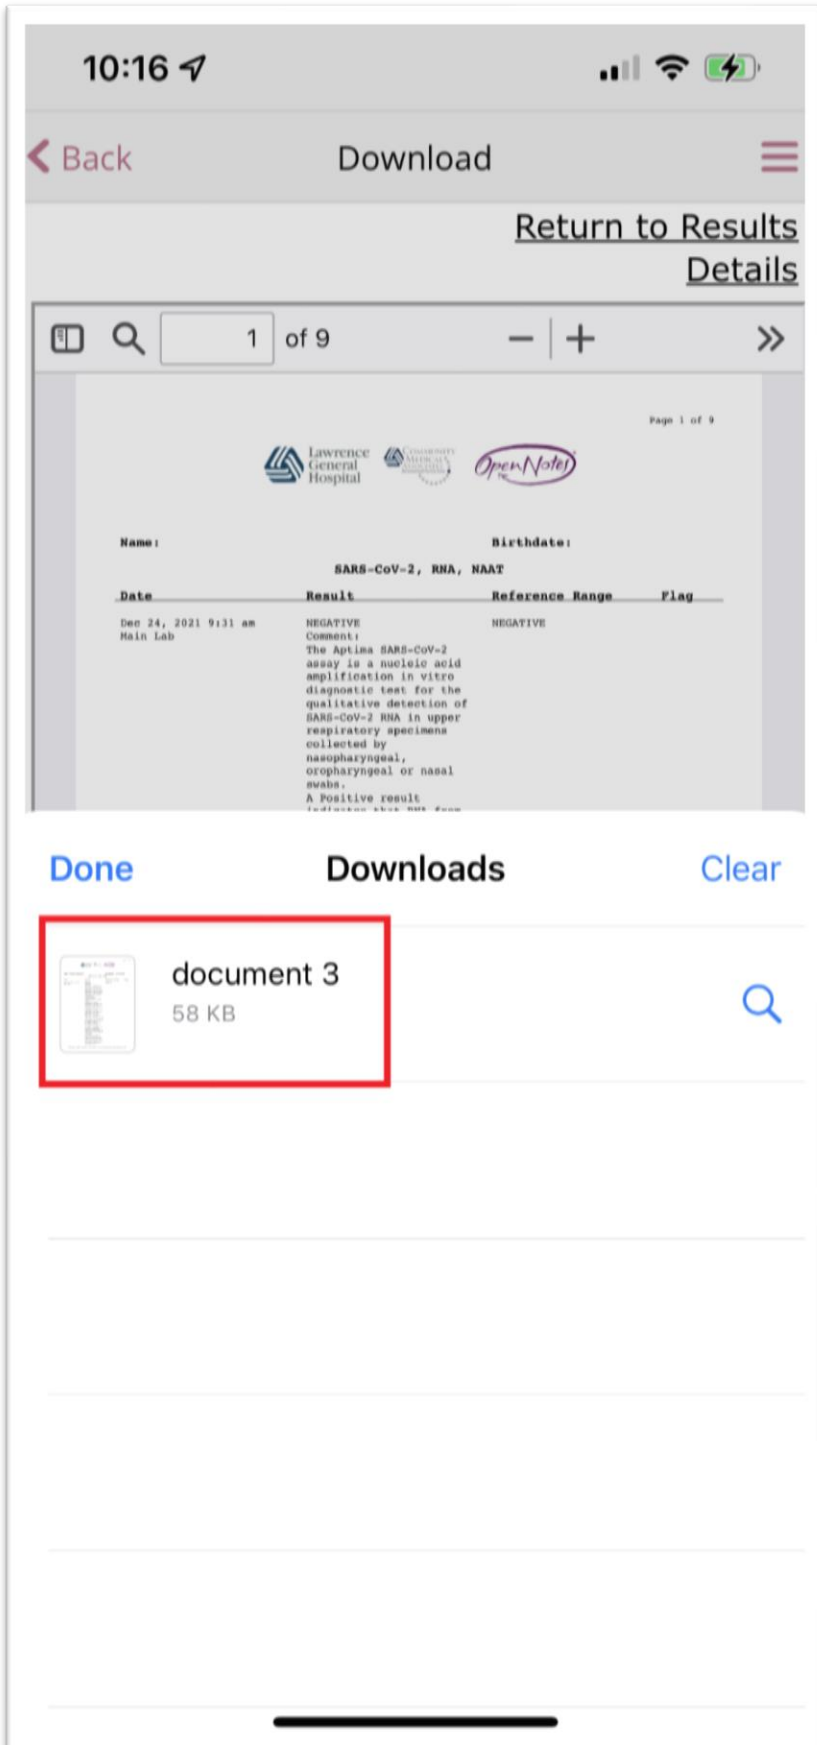

- To Find the Downloaded document on some mobile devices, Click the down arrow next to the address bar.

- Click "Downloads"

➤ Click on the Document

➤ Click on the Document

➤ Click on the Share Icon to email the document to yourself.

Name: Birthdate:

SARS-CoV-2, RNA, NAAT

Date	Result	Reference Range	Flag
Dec 24, 2021 9:31 am Main Lab	NEGATIVE Comment: The Aptima SARS-CoV-2 assay is a nucleic acid amplification in vitro diagnostic test for the qualitative detection of SARS-CoV-2 RNA in upper respiratory specimens collected by nasopharyngeal, oropharyngeal or nasal swabs. A Positive result indicates that RNA from SARS-CoV-2 was detected and the patient is infected with the virus. A Negative result indicates that RNA from SARS-CoV-2 was not detected. This result does not preclude SARS-CoV-2 infection and should not be used as the sole basis for treatment or other patient management decisions. An Invalid result indicate the sample did not meet acceptance criteria; additional sample collection may be considered if clinically indicated. This test has been authorized by the FDA under an Emergency Use Authorization for use by authorized laboratories. The Aptima SARS-CoV-2 assay Letter of	NEGATIVE
